**Summary of reasons
for classification:**

The computer image file printout *r3.jpg* is classified as:
Objectionable.

The publication is objectionable because it promotes and supports the exploitation of young persons for sexual purposes.

The publication is a computer image file that contains a sexual depiction of a young person. The purpose of the publication is to sexually arouse viewers with a sexual interest in young persons. In doing so, the publication advances the idea that young people can be sexual partners for adults or are ready for adult forms of sexual activity. This interpretation of the publication is supported by the fact that the image is contrived for the viewer and it is in a format conducive to private viewing and easy dissemination.

The classification of this publication interferes with the right to freedom of expression, as set out in the New Zealand Bill of Rights Act 1990. However, this is an outcome that is consistent with Parliament's clear intention in s3(2) of the Films, Videos, and Publications Classification Act 1993. The classification is a reasonable limitation on the freedom of expression that reflects the concern of a free and democratic society to limit the availability of publications that promote and support the exploitation of young persons for sexual purposes.
